

Welcome to Aino Health's Early Support e-learning for line managers!

Aino e-Learning platform

We created the Aino e-learning platform to give line managers an easily accessible training when it comes to leadership, and specifically leadership in conjunction with working ability and health management.

HANDS-ON TRAINING AND REAL-LIFE EXAMPLES

The content of Aino e-learning has been developed by Aino Health using inputs from valued business and academic experts in the fields of health and working ability management.

The e-learning training is hands-on and includes several real-life examples and online exercises, which stimulate the participants' own thinking. Multiple presentation formats, such as videos, pictures, and text are utilized.

This is a great tool to use as additional startup training when implementing HealthManager, as well as when continuously onboarding new managers.

The Aino e-learning platform follows a set format with prepopulated content, but some customer-specific tailoring of the content is possible.

QUALITY ASSURANCE

The e-learning is quality assured by a test for each participant in the end of the training. After a passing score, the participant receives a certificate and their HR representative receives information that the participant successfully has completed the e-learning.

THREE MAIN AREAS

Aino e-learning focuses on three main areas:

- To understand working ability and its impacts on the organization
- The overall framework of early support and management of working ability
- Concrete inputs on what a leader can do to manage working ability

TECHNOLOGY AND AVAILABILITY

The training is conducted online and can be accessed from anywhere at any time as long as you have a PC or Mac and an Internet connection.

A subscription to HealthManager is required in order to use the e-Learning platform.

Available languages*:

- English
- German
- Finnish

**More languages will be added as needed*

Technical requirements:

- Computer (PC or Mac)
- Internet Connection
- User account on the Aino e-learning platform (registration is done online using link from Aino Health)
